

Complete aviation experience

Multiflight was born of a passion for flying and since 1994 we have built a company that provides everything for the aviation experience. We offer flight training for fun or a career, through to everything you need to support aircraft acquisition, ownership and maintenance. Our dedicated charter team provide helicopter and fixed wing charters throughout the UK and Europe.

We are Yorkshire's premier aviation centre and exclusively occupy the south side of Leeds Bradford International Airport.

WHY PRIVATE CHARTER?

In today's fast moving world, time is so often the most precious commodity of all. If business or pleasure calls, call us. We will take away the queues, delays and stress usually associated with air travel, and deliver you to your destination on time, every time, safe and relaxed, giving you more time for the things that matter most in your life.

WHY MULTIFLIGHT?

Conveniently located close to Leeds, Bradford, Harrogate and York, Multiflight takes great pride in operating a responsive, cost-effective, friendly and personal air charter travel service that is committed to giving each client the optimum experience every trip.

Approved Air Operator
AOC No. 484122

THE AIRCRAFT TO SUIT YOU

We are the only operator in the north of England operating two luxurious AS365 Dauphins, which can accommodate up to nine passengers, perfect for executive hire. For smaller groups we also operate an AS355 Twin Squirrel, with 5 passenger seats. These helicopters are capable of flying day and night and over water (restricted). Our B206 JetRanger (daylight flights only) has 4 passenger seats and is the ideal choice for shorter trips.

Whether you want to charter a light aircraft for a pleasure flight, a business jet to take you to an important meeting, or a large transatlantic airliner for international travel, Multiflight's fixed wing charter broker service can help. Multiflight also has its own VIP 737 with 48 seat configuration available for charter.

WE TAKE CARE OF YOU

From the moment you step aboard your helicopter or jet, you will appreciate the benefits of charter travel with Multiflight. Think of the convenience of being collected by helicopter from your garden! If you depart from Leeds you can relax in our private executive passenger lounge, a few yards from where your helicopter or jet will be waiting for you. You will have avoided the parking problems and check-in queues and can relax with a coffee before stepping on board your flight.

We are happy to make reservations for that special restaurant or hotel, or perhaps a chauffeur driven car to collect you at your destination. Rest assured, your journey will be planned precisely and professionally. We mean business, but it will be a pleasure with Multiflight Charter.

SAFETY FIRST

Safety is of paramount importance, and at Multiflight, all our flights are conducted in accordance with our JAA/CAA approved AOC Operations Manual. Multiflight holds a rotary wing Air Operator's Certificate, GB2283. All our helicopters are maintained in our purpose built engineering facility at Leeds, and both helicopters and pilots are insured in accordance with AOC requirements.

ALSO...

Multiflight offers a complete aircraft and pilot management service for private, corporate and air ambulance aircraft.

All our pilots are highly trained and experienced and hold the following qualifications:

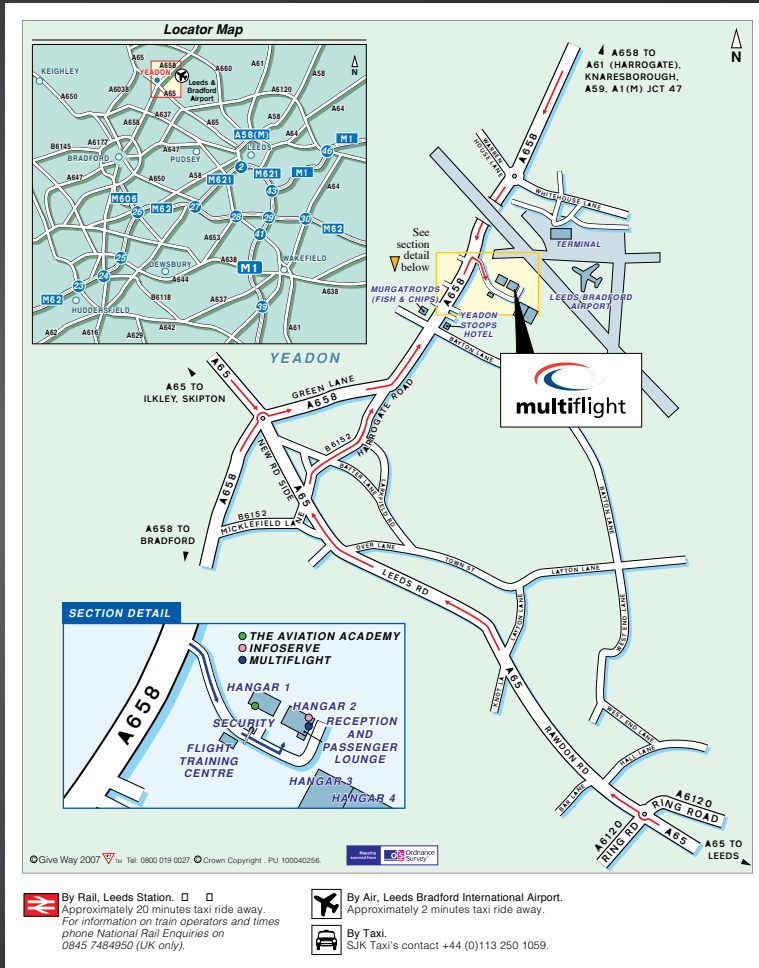

- Operational Proficiency Check every 6 months for each aircraft type flown (alternating day/night)
- Line check and License Proficiency check every 12 months for each aircraft type
- Class 1 medical
- First Aid, Dangerous Goods, Fire, Crew Resource Management, Wet Drills, Emergency Escape Training, Security and Aircraft Daily Safety checks.

Multiflight is audited for standards and safety each year by the Civil Aviation Authority.
